The Tuscany Spill Bowl is inspired by the exquisite ceramics of Tuscany. Tapping into the colors and textures of nature, the Tuscany Spill bowl evokes the beauty of the Italian countryside. The elegant bowl is an ideal solution for when you want a dramatic water feature to make a statement – a statement of refinement and luxury.

Rustic and textured, the Tuscany Spill bowl brings a touch of old-world charm to any outdoor landscape or commercial project and is certain to bring years of serenity and enjoyment just by its sight and sounds. The Tuscany Spill Bowl is perfect for use in your landscape, aquascape designs on pedestals, mid-size to large fountains, and pool and spa water features. The bowls can make an impact whether used alone or in combination.

The larger bowls feature a variety of scupper configuration – wide center scupper, triple scuppers at a 45 degree angle and of course, our flagship configuration – triple scuppers at 90 degree angles. The Tuscany Spill Bowl is available in a variety of stylish colors such as Buff, Dijon, AZ Red, Classic White and many others. This hardstone version is solid and dense and is designed for a higher water volume that creates a robust cascade of water. The hardstone bowl comes in the popular 21", 27", 33" sizes, and a hearty 39" size for larger projects or landscapes. The Tuscany Spill Bowl promises the rewards of a warm and gentle ambience and a true statement of luxury.
